

GIANG NGOC THANH

Fresher Full Stack Developer (.NET / C#)

Address: Hoa Hao Street, Dien Hong Ward, Ho Chi Minh City | **Phone Number:** 0765 272 268

Email: giangngocthanh0709@gmail.com | **GitHub:** github.com/giangngocthanh07 |

LinkedIn: [linkedin.com/in/ngoc-thanh-giang](https://www.linkedin.com/in/ngoc-thanh-giang) | **Date of Birth:** 07/09/2001

About Me

Pursuing a B.Sc. in Information Technology at UIT (Feb 2024 – Feb 2026), with a completed B.A. in English Linguistics from Sai Gon University (2019 – 2023). Strong command of English (TOEIC 895) combined with hands-on full-stack experience in **.NET 9, ASP.NET Core, and Blazor Server**. I am particularly interested in transforming legacy .NET Framework applications into modern, cloud-ready systems. I am seeking a Fresher role where I can leverage my problem-solving skills, learn the ABP.io ecosystem, and grow within a global DevOps-driven team.

Education

Degree	Institution	Period
B.Sc. – Information Technology <i>(in progress)</i>	VNUHCM – University of Information Technology	03/2024 – 06/2026
B.A. – English Linguistics	Sai Gon University	09/2019 – 10/2023

Core Skills

Category	Skills
Languages & Frameworks	C#, .NET 9, ASP.NET Core Web API, Blazor Server <i>(component-based FE)</i>
Architecture & Patterns	Clean Architecture, SOLID Principles, MVVM, OOP, Design Patterns, Unit of Work
Data	Entity Framework Core, LINQ, SQL Server, Azure SQL Edge
API Design	RESTful API, Web API, Generic Response Wrapper
Testing	Unit Test, Integration Test
DevOps & Tools	Docker, Git, GitHub Actions, Azure Data Studio
Learning (Motivated)	Azure Cloud

Soft Skills

English Communication (TOEIC 895) · Adaptability & Continuous Learning · Cross-cultural Teamwork · Critical Thinking · User-Centric Mindset

Project

SmartHotel – Full-Stack Hotel Reservation System *(Sep 2025 – Present)*

Lead Developer (Full Stack) | Team: 2 members | Agile workflow via GitHub Projects

Link: github.com/giangngocthanh07/hotel-booking-system

A multi-vendor OTA platform connecting travelers with hotel owners, built with **.NET 9** (backend) and **Blazor Server** (frontend), following Clean Architecture and an Agile-inspired development workflow.

Key Contributions:

- **Full Stack Development:** Designed and implemented both the API layer (ASP.NET Core) and the reactive UI (Blazor Server with component-based MVVM architecture), delivering a seamless end-to-end user experience
- **Admin Master Data System:** Built a CRUD system for Amenities, Paid Services, and

Certification & Language

TOEIC – 895/990 (<i>Listening & Reading</i>) — ETS Certificate of Achievement	Tested: 05/2023
English	Intermediate–Upper (Professional working proficiency)
